BEHA

HC Classic White and Black Heaters with steel front

Description of Beha HC Classic heaters

Convactor heaters with electronic thermostat provide a stable temperature. These heaters are intended for basic heating and are equipped with built-in weekly program and a program that can be customized.

The Beha HC Classic series is approved for wet rooms in zone 2.

The packaging is recyclable and should be disposed of accordingly.

Electrical connection and use

Before connecting, please ensure that the voltage is 220-240V AC 50-60Hz. The heater should be connected to the electrical socket in the room where it is intended to be used. Do not connect the heater with an extension cable as this may cause a fire hazard.

Care and maintenance

Make sure the heater is cooled down before cleaning. When cleaning the heater, it must be switched off and the cord unplugged. In that order. Remove the cord from the socket by gripping the plug and gently pull it out of the wall socket. Clean the outside with a soft, moist cloth, with or without a mild soap solution. Never use abrasive cleaners or submerge the heater in water or other liquids. Vacuum behind and underneath the heater, twice a year. Before vacuuming released the heater from the wall bracket.

Other information

A defective heater must be delivered to a collection point for electrical waste. The heater must not be repaired, dismantled, or modified.
